

Get inspired!

Visit the region's biggest interactive careers event

Karla Hitching, Visitor

"Without attending this exhibition we would know nothing about many careers on offer to youngsters today, even after surfing the net for many hours with no interest from our son. So thank you for opening my son's eyes to what's out there in the big wide world."

Get inspired!

Your invitation to the special evening opening

The region's biggest hands-on careers and skills event, North East Skills is returning to the Metro Radio Arena, in Newcastle on 29 & 30 September 2009. If you've got a teen wondering what they want to do in the future, come along and be inspired, motivated and thrilled with over 50 organisations providing interactive features from every major career sector imaginable.

Free to visit, North East Skills is for 14 - 19 year olds but everyone can come along. Choosing what to do can be difficult, so to make career decisions easier the whole family, friends, teachers and carers can get involved in the special evening opening on Tuesday 29 September.

The evening opening is happening between 5pm - 7pm and should help you find out about the range of career opportunities available to your child. This is your chance to talk to employers, colleges and experts about your child's future. You can also visit during the days when schools groups are booked to attend.

You can find out more and book your place at www.northeastskills.co.uk or just turn up on the day.

Make it a date, Tuesday 29 September and start looking forward to the future.

North East Skills is different from the usual careers fair and there will be interactive activities from exhibitors including the Army, Careers at Sea, Careers in Racing, Connexions, Connexions Direct, Department for Children, Gateshead College, icould, Kaplan Financial, Lifetracks, New College Durham, Newcastle College, Open College Network North East, People 1st and UKSP, Prison Service North East, Protocol Skills, Rio Tinto Alcan, Rolls Royce North East Training Centre, Royal Navy, Sage Academy of Performing Arts Ltd, Sanofi-Aventis, Skills for Care, SR Media, Sugar Media, TheSite.org, University of Southampton School of Health Sciences and Zenos IT Academy and many more.

Target your child's future
